

## Subject specific vocabulary

---

The following subject specific vocabulary provides definitions of key terms used in our AS and A-level Maths and Further Maths specifications.

### Practical or 'in context' interpretation

Where a question asks for a practical interpretation, it specifically indicates that the answer should be phrased in context ie referring to the scenario given in the question rather than in general terms.

### Hence

Use results found or given earlier in the question.

### Hence, or otherwise

Any correct method is acceptable, but results found or given earlier in the question could be useful.

### Exact value

The answer should be simplified as far as possible but should not be rounded. Answers should be written in terms of  $\pi$ ,  $e$ ,  $g$ , etc and irrational terms such as  $\sqrt{2}$ .
